

Participate in the 8th IEC Young Professionals
Workshop

9-11 October 2017, Vladivostok, Russia

Are you...

A young and dynamic manager, engineer or technician aged from early 20s to mid-30s?

Experienced in working with or developing standards or conformity assessment schemes?

Working for a company, business or industry that uses or benefits from IEC International Standards or Conformity Assessment Schemes?

Wanting to become more involved in IEC-related activities?

Why attend

Participate in the only annual workshop dedicated to the next generation of experts and leaders on IEC standardization and conformity assessment

Experience the IEC General Meeting: a key annual event that brings together the IEC technical and management community

See how International Standards are managed and developed through the opportunity to attend management and technical meetings

Benefit from increased opportunities to get involved in IEC work after the workshop

Benefits for you

Exceptional networking opportunities with >1500 international key players

Build knowledge and expand professional contacts

Participate in interactive sessions and events where you can exchange with peers

Have your voice heard: your ideas are reported to IEC management

For your company

Be ahead of the technology curve in your field

Help to ensure technology transfer

Foster a culture of innovation

Cultivate long-term involvement in the international arena

What to expect

"I regard the networking opportunities in the IEC Young Professionals (YPs) Programme as invaluable, both for the participants and their companies. The YPs can learn a lot about business leadership qualities and they can also understand how to influence change in the IEC, which will directly impact their companies' business."

I believe the YPs are going to be the technical and business leaders of tomorrow and that this Programme is a unique opportunity for them to work together and learn from each other."

Beer Opatsuwan, Australia

"My expectations were exceeded and I have already become more involved in the IEC as a result of the IEC YP Programme. I will be able to use the experience I have gained from being on the Programme as evidence of my continuing professional development."

In the future I would like to get involved in the strategy that drives standards development. As we develop new technologies and innovate we should also be innovating in standards development, both go hand-in-hand."

Alan Sellers, UK

How to register

Contact your National Committee to the IEC for details of the selection process in your country
www.iec.ch/members
