IEV-Entry-sep <sup>3)</sup>	

<sup>1)</sup> There can be more than one representation (term), so an entry may contain more than once paragraph in this style. The styles IEC-en-Term-admitted and IEC-en-Term-deprecated (lightface – do not alter to bold) are also permissible.

<sup>2)</sup> A non-verbal representation is usually a maths equation or a figure. It may be replaced by “VOIR: ...” / “SEE: ...”.

<sup>3)</sup> It is not necessary that there is an empty paragraph here, but if there is one it shall be in this style.
